BENARES

THE STORY SO FAR...

Everything starts at tibet. A japan ethnologist, professor Fujii, will die without having granted the wish of a mysterious young girl named pai. He has however the time to give her a letter for his son. This is how Pai enters to the life of the young high school student Yakumo Fujii... He has to help this young girl become human! How is he going to take this wish seriously and believe to that story about immortal people? However, Yakumo is accidentally killed by Takuhi, the monster servant of Pai, and by an extraordinary magic brought back to life... Better, he has acquired immortality... He has become a Wu, the almighty protector... From now on, his destiny is linked with that of Pai. The two start a long journey in the end of which they hope to find the way to become humans...

Their researchs lead them to the "Statue of Humanity" who could be the key to their goal. But the people of darkness want to release Kaiyanwang, the evil king who annihilated the Sanjiyan Unkara and had been sealed into the Seima Stone! Our heros must fight these evil forces to stop this resurrection and they go all the way to the world of the Sanjiyan Unkara, Konron (holy land)... Alas, at the big battle he engaged, Yakumo is defeated by Benares, the almighty Wu of the evil king. The are saved by Houasyou the enchanted snake, been fixed the forehead of the Sanjiyan until now, who disobeys Benares and frees Pai. The Sanjiyan then gets her tremendous powers back and disintegrate Benares and the Seima stone... Afterwards, they have to discover the way to become humans...

Thanks to the spell which reads the memory of objects which Pai uses on a fragment of the Seima stone, the truth explodes: The humanification ritual has the only purpose of conveying the powers of two other Sanjiyans gathered around the statue to Kaiyanwang. There must be three Sanjiyan... Shiva is very weak and this time, is at the point of disappearing for good. Benares who has to save his master knows where to find a third Sanjiyan... He sends Yakumo to the Andaka, the world beyond our world, to bring Ushasu who had been exiled long ago. In the meantime, Benares abducts Pai and prepares the Humanification Ritual in the Castle Rock, in Seichi. Yakumo coming back from Andaka with Ushasu must now save Pai. A small team infiltrates the Castle. Among them is Ushasu herself! She seems to have an agenda of her own...
